

**Grenoble
Host-Pathogen
Interactions Club**

**Focus
on the
Microbiome**

**December 15, 2023
Institut de Biologie Structurale**

www.hostpathogen.fr

PROGRAM

- 14:00 – 14:05 **Welcome**
- 14:05 – 14:40 **Michael Zimmermann, EMBL Heidelberg**
Identifying gut microbiota contributions to carcinogen metabolism and tumorigenesis
- 14:45 – 15:00 **Lama Shamseddine, LCBM Grenoble** (present address: IBS)
*Antimicrobial peptides of the human symbiont *Ruminococcus gnavus* E1*
- 15:05 – 15:20 **Dalil Hannani, TIMC Grenoble**
Inulin prebiotic reinforces host cancer immunosurveillance via microbiota modulation and $\gamma\delta$ T cell activation
-
- 15:25 – 15:50 *Coffee*
-
- 15:55 – 16:30 **Philippe Cinquin, TIMC Grenoble**
Towards intestomics with a new non-invasive gut sampler
- 16:35 – 16:50 **Evelyne Jouvin-Marche, IAB Grenoble**
Funding opportunities through the PEPR-SAMS program
- 16:55 – 17:15 **Guillaume Hoffmann, IAB Grenoble**
Targeting a microbiota Wolbachian aminoacyl-tRNA synthetase to disrupt its pathogenic host

If you need a site entrance
for the EPN campus
please register before Dec. 12
