

Drug Discovery in Infectious Disease

A joint symposium of the Grenoble
Drug Discovery & Host-Pathogen Interactions Clubs

November 19, 2024

European Radiation Synchrotron Facility, Grenoble

PRELIMINARY PROGRAMME

- 9:30 – 9:50 **Registration**
- 9:50 – 10:00 **Welcome**
- 10:00 – 10:40 **Vincent Libis**, Inserm/Université Paris Cité, U1284 Paris
(*Topic: Discovery of novel bioactive microbial metabolites*)
- 10:40 – 11:00 **Presentation from selected abstract**
- 11:00 – 11:20 **Flash Poster Session** (2 min/poster)
- 11:20 – 12:00 **Nathalie Bosquet**, IDMIT Fontenay-aux-Roses
(*Topic: Infectious disease models and innovative therapies*)
-
- 12:00 – 14:00 **Lunch and Poster Session**
-
- 14:00 – 14:40 **Gerald Larrouy-Maumus**, Imperial College London
(*Topic: Discovering new drug targets in Mycobacterium tuberculosis*)
- 14:40 – 15:00 **Presentation from selected abstract**
- 15:00 – 15:10 **Short talk from industrial sponsor**
-
- 15:10 – 15:40 **Coffee**
-
- 15:40 – 16:00 **Presentation from selected abstract**
- 16:00 – 16:40 **Philippe Bulet**, BioPark Archamps
(*Topic: Microbial infection in honeybees and drug resistance*)
- 16:40 – 16:50 **Concluding remarks**
